INDEX TO VOLUME 46

Acarina. Acaridae, 176; Anoetidae, 310, 454; Macrochelidae, 101
Adranes taylori, behavior of, 526
Agapetus **spinosus**, 425
Akre, Roger D., G. Alpert, and T. Alpert, Life cycle and behavior of *Microdon cothurnatus* in Washington, 327; and Wm. Bruce Hill, Behavior of *Adranes taylori*, a myrmecophilous beetle associated with *Lasius sitkaensis* in the Pacific Northwest, 526
Allen, Richard K., see Richard C. Brusca
Alpert, G., see Roger D. Akre
Alpert, T., see Roger D. Akre
Altica bimarginata, life stages of, 500
Anderson, Norman L., see Horace F. Borchert
Anoetus **debilis**, 319; **vexarus**, 322
Apis mellifera, insecticide tolerance of, 446
Archiborborus (*Procopromyza*) **mexicanus**, 155
Augochlora, notes on nests of three wood-dwelling species, 17; *A. pura*, recognition of brood cells in, 301; *A. pura*, soil-nesting in, 496
Augochlorella edentata, parasite of, 1; aspects of biology of, 3
Austromerope poultoni, zoogeography of, 511

Barrows, Edward M., Soil nesting by wood-inhabiting halictine bees, *Augochlora pura* and *Lasioglossum coeruleum*, 496
Barstow, Darrell A., and A. R. Gittins, Descriptions of the life stages of *Altica bimarginata*, 500
Bartlett, Christina B., see David A. Evans
Bell, William J., see Theodore Burk
Boles, Hobart P., and Donald A. Wilbur, Resistance of woods to penetration by cadelle larvae *Tenebroides mauritanicus*, 23
Borchert, Horace F., and Norman L. Anderson, The ants of the Bearpaw Mountains of Montana, 200
Brown, William L., Jr., A new species of *Miccostruma* from West Africa, with notes on the genus, 32
Brusca, Richard C., and Richard K. Allen, A new species of *Choroterpes* from Mexico, 137
Bugbee, Robert E., Two new parasitic species of *Eurytoma* from the United States, 338
Burk, Theodore, and William J. Bell, Cockroach aggregation pheromone: Inhibition of locomotion, 36
Burkhardt, C. C., see Rabinder Kumar
Burt, P. M., see R. E. Lewis
Byers, George W., A mating aggregation of *Nysius raphanus*, 281; Descriptions and distributional records of American Mecoptera, III, 362; Zoogeography of the Meropeidae, 511

Caloglyphus berlesei, biology and population dynamics of in xenic diet, 176
Chilothrips, key to species, 110; **occidentalis**, 110; **pini**, 112; **rotrameli**, 114
Choroterpes **oaxacaensis**, 137
Clement, Stephen L., The nesting biology of *Melissodes* (*Eumelissodes*) *rustica*, with a description of the larvae, 516
Coleoptera. Chrysomelidae, 500; Hydrophilidae, 116, 434; Ostomidae, 23; Pselaphidae, 526

Dasymutilla nigripes, host searching range of, 343
David, Menter H., and Gerald Wilde, Susceptibility of the convergent lady beetle to parasitism by *Perilitus coccinellae*, 359
DeLong, Dwight M., and Candace Martinson, The genus *Knullana* with the description of a new Mexican species, 151
Diptera. Chironomidae, 160; Dolichopodidae, 347; Sphaeroceridae, 154; Syrphidae, 327
Dolichopus, key to North American species, Group B, 348; **gaigei**, 354; **gratiolus**, 357

Eickwort, George C., and Kathleen R. Eickwort, Aspects of the biology of Costa Rican halictine bees, V, *Augochlorella edentata*, 3; Notes on the nests of three wood-dwelling species of *Augochlora* from Costa Rica, 17
Eickwort, Kathleen R., see George C. Eickwort
Ephemeroptera. Leptophlebiidae, 137
Erythroneura (*Eratoneura*) **asymmetra**,
